Sponsorship is tax-deductible.

SUPPORT OUR FIRST ROBOTICS TEAM

What is FIRST Robotics?

FOR INSPIRATION & RECOGNITION OF SCIENCE & TECHNOLOGY

FIRST Robotics Competition teams design, program, and build a robot starting with a standard kit of parts and common set of rules to play in a themed head-to-head challenge. Competitions take place at the local, state and national level. Teams also build a brand, develop community partnerships for support, and work to promote STEM in their local community.

Help us reach our season fundraising goal

Our team relies on sponsorship funding in order to build robots, participate in competitions and *inspire* others in the Traverse City community. We are seeking donations for the 2021-22 competition season to support our annual program budget of \$50,000. **Your sponsorship will help us cover the cost of materials, registration and competition fees, travel expenses, and more.**

Team accomplishments

- Innovation in Control, Creativity and Safety Awards, 2019
- Gaylord District Champions and Industrial Design Award, 2018
- Chairmans Award Winner, 2017
- Chairmans Award Winner, Deans List Finalist, and Excellence in Engineering Award, 2016
- Competed at States in 2016, 2017, 2018, 2019 and Worlds in 2018

Without the support of our sponsors and the community, our program would not exist. **Thank you for your support.**
